Fearful Depreciation

INO. 117

The S. F. Call has an editorial n which it figures up that four prominent mining stocks have depreciated in two years from \$10.-500,000 to \$1,734,000! Loss, \$8,-766,000. Taking into consideration the numbers of once valuable atocks that have passed entirely out of market, the depreciation broughout the list will show the same average. The Call attributes this state of things to the

following causes:

First: To the extravagant and reckless management of mines by the officers and agents of incorporate companies, who have squandered thousands of dollars, partly in foolish work upon mines, but principally on fast horses, wine suppers, costly furnished offices, and lawyer's fees. Second: To the insane desire for speculation which possessed the community. Third: To the outrageous bearing operations of brokers and others; and Fourth: To the willful mismanagement of leading mines, so as to depress or inflate the price of stocks according to the pleasure of operators. In short, the mines have proven ruinous to the people, because they were worked in Montgomery street by stock sharpers. instead of in the mountains and ravenes by practical men. It is well to bear in mind the fact that the mines which have proven so disastrous to the people are not located in this State; that the manner in which they have been managed has injured interests in Californis with ut benefiting the regions wherein the mines are located; and that the mines in Nevada (with a few exceptions) as well as those in California, which really pay, and are constantly adding to the wealth of the world, are wholly unknown

in the stock market. THE NEWSPAPER - Take the most thorough man of the world of our acquaintance it the man most versed in what goes on in all conditions and ranks of lifeand I ask you what he would be without his newspaper? By what possible machinery could be learn as he sits at his breakfast, the last news from China, of the last ballet at Paris, the state of the funds at San Francisco, the winner at Newmarket, the pantomime at the Olympic, and the en-cyclical of the Pope? Without my newspaper, life would narrow itself to the small limits of my personal experience, and humanity would be compressed into the ten or fifteen people I met with. As for the advertisements, I regard them as the mirror of ago: Show me but one page of the "wants" of any country, and I engage myself to give a scetch of the current civilization of the period. What glimpses of rose interiors do we gain by those brief paragraphs. How full of suggestions they are !- Lord Brougham

14.60

the above subject, tells the "peace commissioners," the authorities at Washington. St. Louis or wherever they may lie, some stubborn truths touching the botched up course they have been advocating and inaugurating under the hyper-humanitarian howi of "peace," "peaceful Indians," "treatles," "massacres," wheads' and balderdash of that kind He has better ideas on the subject and on the course that alone is adequate. than many of our red taped Major Generals and Peace Commissioners combined. Here his opinion on the case in point:

Indians have again attacked our lines of communication, and destroyed lives and property. Not amovement has been made here to remedy the rvil. Our pa-pers devote their entire attention to the killing of some Indians down near the Arkansas about a year ago, and seem absolutely to iguore present danger, and the interests of a community threatened by all the horrors of Indian war. The only General who has shown any ability as an Indiar fighter is removed, just as be had commenced his work, and he tailed in closing up the Indian war, only because he was not turni-had with either troops, arms or supplies to make the campaign. So far as General Connor had material he was successful. His removal to Utab is a calamity to the entire population of the Territories.

Just as our troops were pressing the Indians to their destruction, we find peace commissioners', in the field, who stop offensive operations and give the Indians an opportunity to recuperate and again attack exposed parties As matters now stand, peace is impossible. The India's now attacking the line of the Platte are those who have been on erating against Gen. Connor. He was compelled to ab indon the whole field of his operations giving the Indians the prestige of victory. The Indians are now moving south for Buff do and winter quarters Gen. Sinborn proposes to "escort" them - the troops would be better employed in fighting them

The people of the frontier have the right to demand adequate protection to life and property. The people of Colora-do make this demand through your columns. They claim that treaties of peace with Indians who are daily murdering their fellow-citrzens is criminal stupidity We demand that the Indians shall be pun ished, not bought up. The settlement of this part of the question should be

Many years among the various tribes proves conclusively that a radical change in Indian affairs is demanded. The "agency" method should be abandoned with all wild or nomadic tribes. The entire Indian business should be in the hands of the War department, and a competent General given exclusive control of that de-

We should hold military possession of alt Indian country, and not surrender to them any portion of the country. Posts should be established on the Smoky Hill, the Republican and the Solumon, and at other points, so that we can hold them in constant subjection, and prevent preparation for war. Under present in inagement, we simply trust the "honor" of a race of vagabonds and thieves, under what we call a "treaty." and by so doing expose to attack all persons outside of settlements. By holding their country we can punish at once any crime, and enforce respect. We ask that the Government whip the Indians into antimission, and then compel them to remain peaceable.

COLORADO.

The late style of "Indian policy," practiced is illustrated by the indecisive economy (?) suggested through the following, which we clip from the N. Y. Daily Times of Nov. 9th:

The army train, consisting of fifteen hundred and seventy five mules, two declaring with characteristic insincerity hundred and fifty eight wagons, sixty that they were not in Idaho, and would traveling forges and two ambulances. which left Washington, D. C., on the 6th of last August, under the charge of Major H H. Mandeville, arrived at Springfield, IH., on the 31st of October. It was the intention of the War Department. when this train was placed en route for Fort Leavenworth, Kan., to send it across the plains; but the project has been abandoned, and an order issued direct Ing the sile of the mules at auction at Springfield, and the shipment of the ve-bleles to Fort Leavenworth for transportation service or sale at that point.

Boda - Springs, 11 Idaho: Correspon-

Boundary line between Utah and Idaho. Part of Cuche Villey in Idaho. The Mormon residents oppose taxation.

Preparing for a fight, which shall ful fil prophecy" and make Brighum "ruler of the land."

Sopa Serings, Oneida Co., I. T.,) Nov. 12, 1865.

Blitore Union Wedette: - It is a long time since an article from this locality has found its way into the columns of your estimable journal. Notwithstanding some few of the patriots now residebts of 'Camp Douglas" were the original founders of this little town, and through their kindly care over the greater number of its inhabitants, it was fostered and kept in existense until able to get along without being "rationed" from the hospitable "Camp Connor." If there is any truth in the doctrine of "self reliance," I am sure that in the end it will prove best for the welfare of a Utab bas been surveyed so far as it It should be lashed into loyalty like a of the inhabitants of Boda Springs. that the soldiers who garrisoned "Camp

Connor" are withdrawn. sambly of this Territory, ereating the nty of Onicia, Buda Springs was to the county cest. Six months ago herif and Author were sent here to The largest in the Tor-

tions in the way of arming themselves, helpless negroes as he appears to ward the skulking Camasches and Alarge frain from the Million Liver Assembors.—S. F. Flag.

建设、相关 alred that cated Bear Lake, 'north of parallel of le 490, which is the northern boundary of Utah. The map as well places the northern portion of Cache valler above the northern toundair line. The "Saints" finding that Southern Idahe, which nearly bordered on the parallel of 420, possessed fine valleys and rich, soil: urged by the increase from the tide of vearly Mermon immigration, have moved secoss the boundary line, and settled in Bear River Lake Valley, where they have built up quite a number of thriving settlements, and are reaping rich harrests from the soil. Settlements have also been made in Ronde Valley, and in the northern portion of Cache Valley.

After the organization of this county, which occurred in August last, measures were taken by our Board of Commissioners to put the laws of Idaho in force. throughout the limits of the county. Everything worked satisfactorily in the northern portion, but when the southern portion was notified that they too were expected to give their allegiance to this Territory, they answered that the boundary line between Idaho and Utah had never been surveyed by competent anthority, and they claimed that they were at a loss to know whether they were in Idaho or Utah. In view of this phase of the subject, measures were taken by our Commissioners to have the matter of the boundary line settled. An agent was appointed to procure, if possible, by joint operation, a survey of the disputed boundary, but more particularly to obtain the regular maps of surveys by the authorized engineers of the Government, while they were through this country. In pursuance of his duty, the agent of this county used every endeavor to have the line dividing the counties of Richland and Cache from Oneida properly surveyed. Application was made by the Surveyor General (who acts under the Territorial laws) of Utah. At first, be consented to run the line, but afterwards he found that he was without authority to do it. Netwithstanding, this county would have hired him, independent of his position, as a party in whom the Mormons had coafidence, and would have paid him the party. Suffice it to say, subterfuge of time. After truthfully describing the a survey being made-they (the Mor- generally, he remarks: mons) fearing, no doubt, that a running be subject to its laws. While exertions by survey, regular United States maps from the Topographical Bureau at Washington were obtained, and by reference to them. (and there can be no doubt as to their correctness) it was found that the whole of Bear River Lake Valley and a goodly portion of Cache

and, of course, in this county. With the authority of these United States maps defining the limits of the jurisdiction of our county officers, our assessor went forth on his mission of assessing all the taxable property of the county. Incited by their hierarchic leaders, a great number of the inhabi tants of the southern settlements declined to give in a list of their property, that they were not in Idaho, and would not acknowledge its laws. Their property was assessed, however, and I am assured that the taxes will be collected. notwith tanding, at present, they offer all the opposition they can to the Tax Collector performing his duty among them. I have conversed freely with all the officers of this county, and find them competent gentlemen, whose chief object is to perform their duty as required by law. They say they can bardly blame the people in the course they have adopted (although all men in this county are supposed to act independrot) because they are governed by the leaders of the church, who exercise a lamentable influence over their followers, and whose deceit to the "Gentile

race" is proverbial. Notwithstanding the officers of the civil Law in this country meet with great difficulty in discharging their duties, and the Mormons still oppose the execution of the Laws in their locality. am inclined to the belief that the Country to which Uncle Sam's men have contributed so much to build up its county seat, will yet be a prosperous locality, in which will be found enterprise and civilization.

The agent of this county received a few days ago a letter from Gen, Pierc. who is the U. S. Surveyor General for See here, and his philorm of itself, Colorado, Utah and Idaho Territories. would add certainty to retusal, the city saying that the northern boundary of over. Den such patriotism as this! conforms to the northern boundary of township 14 north from the Salt Lake The New York Times is whimor General places the town of Frankin ty to hostile Indians. It calls his in Cache Valley is this Territory, and battles "massacres", and is obviindicates the northern boundary of Utah ously under the impression that in as running between the fowns of Rich- going to war with savages for the

The Mormons in our southern settle- of them! We wish the editor of ments are making extensive prepara- the Times were as friendly to the

ment. The Mormons exchanging flour for them-breach loading rifles bringing a thousand weight of flour each! The ahiralrona Mormone" are aurely making rast military preparations. They assert that it is to resist the encroachment of the United States, that perhaps the rebellion is not yet put down, and is but a sleeping fire that will burst forth to consume our Government, and then, in fulfillment of prophecy," Brisham, and the opostles will become the rulers of the United States North, South, East and West. Who knows? I "ean't rec it."

Some discoveries have recently been made in this county of silver quartz leads, which I believe will open a new source of wealth to us. One ledge found a half day's travel west of the Salt Lake road, promises well. I am informed by parties who are tested the quartz, that it will pay as high as \$60) to \$700 to the ton, as they say they can melt eilver from it in a blacksmith's furnace when they can bring it to bear a strong heat Assays are soon to be made of the quartz,

which will fully demonstrate its value. From miners who have been in the mountains, I learn that placer digginghave been found in the vicinity of the Salt Springs, which are about sixty miles in a northeast direction from this place. Some parties have left here to work the "diggings" during the time between now and the setting in of win ter. From specimens that are exhibited in town. I have no doubt but these 'diggings" will pay largely. It is be leved here that there is mining going

os in other portions of this county. Our grain crops harvest better than it was first supposed they would, the early frosts not having injured them so much as reported. One of our Consty Commissioners, who came to this country with Gen. Connor's command, has cultivaced quite a farm near this place, and is doing remarkably well.

JULIAN. Yours.

Mormon Loyalty: Ustensible and Actual.

There is an extract from Bowles' letters to the Springfield Hepublican, which strikes us as most appropriate to re-pubsame as if they had employed a private lish in this connection at this present every kind was resorted to to prevent situation of things here, socially and

There is no more love lost between the of the boundary line would place them soldiers and the Mormons than between n this Territory, and where they would the soldiers and the Indians. The "boys emies, and the enemies of order and the were being made to have the line run government. There is a provost guard of soldiers in Salt Lake City; but the lease of the building which it occupies is about expiring, and, according to a Mormon way of getting rid of an uncomfortable presence. no other is to be had in its pince. Every building singularly happens to be engaged just now, and the Mormons have evidently thus hoped to drive all these 'standing menners and Valley were within the limits of Idaho. seducers of their women," as they call em, out of town and into camp, two miles distant. But when Mr. Colfax enggested to two or three of the elders that such a result could only be interpreted at Washington as a compact and contrivance to embarrass the soldiers and defy the government, they seemed to be merted to a new and original line of thought, and the probability is that the provost guard will e enabled to find some unoccupied building that had not before been thought

For the past few weeks this pseudo patriotism has been pracically "weigh ed in the balance and found wanting. The Commander of the District and his Staff have been hunting, high and low, through Seer and subjects, for a building to rest and occupy as Head Quarers, but with the same universal and inveterate stubbornness, perverseness prejudice or whatever you may call it that they encountered here in days gone by, From father to son, from boy to Bishop, all have acted as if under obligation to refuse to rent their vacant buildings as soon as they learned it was to be used or

occupied for Government use! Not only that, but this same hostile Hierarchy allow the provise to be made in the leases at present drawing, that the tenements or building shall not be re leased except for certain purposes particularly specified, thus direct y debarring the sub leasing of any building to Uncle Sam or bis Army officers among us We might enlarge here, add proof to proof and instance to instance of this whole rotten, rebel spirit of embarrassment and ingratitude expressed, in ac tion, by these sanctimonious Union men, (when the Colfax crowd were here;) but it isn't necessary. That latter party and the public too, are of old familiar with this forked-tongued fraternity. No ; an officer or soldier might offer twice the current rent for a room or of-

mond and Franklin, where some of the protection of new settlements, the township marks still exist. General is not expected to kill any General is not expected to kill any

Department of State, desiring to know at once whether Le accepted the appoint ment or not.

Buffalo, Nov. 27. At Meauville, Pa., yesterday, an entire block of wooden buildings on Dock st were destroyed by fire. It was occupied by some of the most important basiness houses in this city. Loss estimated from \$150,000 to \$175,000. Eleven stores. several minor shops, and Journal printing office, were destroyed. It is suppos ed to be the work of an incendiary. Insurance small.

New York. Nov. 27. The Commercial's Washington special contains the following: A well known contributor to the press is not the only New Yorker who believes Collector Preston King still lives, and that there is a method in his madness that enabled him to successfully decrive his friends and the public A lady whose husband occupies a high political rank has written the most ingenious paper on the subject, and forwarded it here under injunction of the strictest secresy, as she endeavors to prove that Mr King, if unmolested in the retreat which he provided for himself, will, in a few weeks, recover his reason. Improbable as this may seem at first sight theory, it is sup ported by some curious facts not generally known.
